25 years of Danish handmade quality comfort

The core of the One Room Living is an undivided and easy bendable mattress, which ensures a sofa bed with a comfortable and supportive surface for relaxing, sleeping and sitting.

Over the past 25 years, we have continually developed and refined our mattresses in order to improve comfort and durability.

Every single mattress is handmade with great care and attention to quality and details at our factory in Denmark.

Layers of comfort

All our sofa bed frames are equipped with beech-wood slats. The combination of frame and a mattress fixed to the frame, provides a dynamic and supportive comfort for sitting and sleeping.

Add an Inno topper to provide an even higher comfort during the night and protect the cover at the same time.

The One Room Living mattresses are defined by being flexible and bendable, which allow them to shape into sofa position and head elevation positions. This provides a unique, even and undivided mattress surface in sofa and bed position.

The mattresses

Classic

A comfortable, classic mattress with three layers of breathable, carted cotton on top of an 8 cm freon-free polyether foam core with one layer of carted cotton underneath.
